Summary

BTech Computer Science student with a solid foundation in programming concepts, exceptional problem-solving skills, and adaptability to emerging technologies. Eager to gain valuable insights through cross-domain projects, collaborate in team-oriented environments, and contribute innovative solutions while continuously enhancing technical expertise.

Education and Training

Bachelor of Technology Computer Science Engineering,

08/2027

Graphic Era Hill University Dehradun

Relevant Coursework:

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Computer Networks
- Machine Learning

Skills

Programming languages

C, C++, Java, Python, Dart, JavaScript

Web development

HTML 5, CSS, React.js, Flask

Cybersecurity

Wireshark, Kali, Nmap, Social Engineering

Technical skills

GitHub, Git, MySQL

Soft skills

Team Collaboration, Project Planning

Android Development

Flutter

Projects

SecureX File Storage, Cross-platform native application for iOS, Android, and Web, designed with privacy in mind. It features client-side encryption with dynamic key generation and salting, combined with server-side encryption, ensuring end-to-end data security while maintaining seamless cross-platform functionality.

Tech Stack: Flutter, Backblaze B2, Firebase

Genomo, A platform designed to estimate the threat of newly found pathogens by analyzing their DNA string.

Tech Stack: Crow, C++, Tailwind CSS, HTML, JavaScript

MediSync, A platform designed to detect skin disease present in humans using CNN based detection model to analyze image pattern.

Tech Stack: Python, Tensorflow, Flask, OpenCv, HTML, CSS

Certifications

- Enterprise AI by IBM SkillsBuild
- Java, C, Data Visualization by GUVI
